Scope

We are pleased to announce the International Symposium on Spin Waves that will be held at the Ioffe Physical Technical Institute, St. Petersburg, Russia, June 7-12, 2009.

Since the sixties the Symposium on Spin Waves was held biannually in St. Petersburg and aimed to provide opportunity for discussion of the last advances in fundamental research of dynamical behaviour of spins in ferromagnetic, ferrimagnetic, and antiferromagnetic materials. This year the Symposium will highlight the modern problems of spin dynamics with a special emphasis being paid to novel trends in magnetism.

Program topics

- **Novel trends in spin dynamics**
- **Spin waves**
- **Current-induced and spin-torque phenomena for spintronics**
- **Low-dimensional magnetic structures, magneto-photonics and magnonics**
- **Spin liquids and frustrated magnets**
- **Electromagnons and multiferroics**
